- The Research Committee received eight project proposals from the staff members. The titles of the proposals are as follows:

(1) Water management

(2) Growth, Characterization of spectral optical electrical, mechanical properties: Experimental and computational calculation on Piperazine L-Methionine, A novel single crystal for NLO applications

(3) Computational study of Organic novel benzimidazole derivative using Density Functional Theory (DFT)

(4) Root square mean labelin of zig-zag triangle graphs

(5) Removal of HeavyMetals from Laboratory Wastewater Using Vetiver Grass (*Chrysopogon zizanioides*) as an Adsorbent.

(6) The influence of social media marketing on consumer behaviour : A study of emerging trends and purchase decision.

(7) Influence of Agricultural food wastes

(8) Synthesis, Structural, Optical, and Biological Investigations of Cadmium(II) BromideDoped with L-Cysteine : Experimental and Computational Methods

- After reviewing the project proposals, the Research Committee recommended Three projects.

(i) Synthesis, Structural, Optical, and Biological Investigations of Cadmium(II) BromideDoped with L-Cysteine : Experimental and Computational Methods

(ii) Removal of HeavyMetals from Laboratory Wastewater Using Vetiver Grass (*Chrysopogon zizanioides*) as an Adsorbent.

(iii) Water management
