The speaker **Mrs.E.Septima**, Assistant Professor, English, KCSAMW said that **Happiness is good**. It provides us with a sense of optimism, a “take on the world” attitude and a positivity that can be infectious. According to a recent study, everyone attempts to find happiness in three ways: Doing good for others; doing things you’re good at; and doing things that are good for you. Moreover, those who are the most optimistic, are the happiest overall. And the research doesn’t stop there: happiness is closely tied to being happy with your job, your closest relationships and taking care of yourself physically and emotionally. In discussion many staff members shared their valuable tips about health & Happiness.
