Best Practice I

Title of the Practice: Computer Literacy & Awareness Programme

Objectives of the Practice:

- Provide excellent digital skill training to all the students from various disciplines.
- To impart computer skills to the students of Arts and Language classes.
- Create a platform for online courses through MOOC, SWAYAM etc.

Context:

The students received training in computer skills for MS Word, Excel, PowerPoint, email creation, and web access. Students develop the confidence skills and effective use of digital technology to support teaching and learning.

The Practice:

Based on the training the students receive, they could attend various online courses, online examinations and also participating online seminars, conferences etc.

Evidence of success:

- Complete online courses.
- Attend online competitive examinations.

Problems encountered:

The students required a continuous periodic training to achieve advance level.

Resources required:

Additional Computers and faculty.

Best Practice – II

Title of the Practice: Pakirvom Magizhvom

Objective:

“Give, even if you have little.”

The mission of "Pakirvom Magizhvom" (which means "Sharing is Bliss") is to mould every student into a better Indian citizen by enhancing their character, fostering compassion in them, and instilling integrity in them. It aims to bridge the gap between those with excess and those who lack basic necessities.

Context

The implication is that a person would acquire inner serenity to a greater extent the nicer deeds they perform for other people. Lifetime values including humanity, cooperation, courtesy, dedication, gratitude, sacrifice, tolerance, and unity are taught to the children.

The Practice

Every year, the institution implements a Pakirvom Magizhvom program that is best practiced for all pupils. The consumer club adopted the "Pakirvom Magizhvom" practice, which is carried out by all of the institution's stakeholders. Students donated products such as watches, notebooks, books, stationery, and more so that the less fortunate may use them.

Evidence of Success

Teachers saw that students' attitudes had changed toward sharing their belongings with less fortunate classmates. Pupils learn to see the need to assist those in need no matter what.

Problems Encountered:

The difficulty is in the needy students' perspective, which avoids using their lower sense to accept shared goods.

Resources required:

It is necessary for staff to counsel pupils and for teachers with mature and enriched ideas to instill the humaneness of the activity.
